JOURNAL OF ANATOMY

CONDUCTED ON BEHALF OF THE ANATOMICAL SOCIETY
OF GREAT BRITAIN AND IRELAND BY

D. BULMER
R. E. COUPLAND
M. H. DAY
M. J. T. FITZGERALD
T. W. GLENISTER
E. G. GRAY
F. R. JOHNSON
R. M. H. McMINN
G. J. ROMANES
R. J. SCOTHORNE
J. W. SMITH

J. J. PRITCHARD (EDITOR)

VOLUME 123
FEBRUARY–JULY 1977

CAMBRIDGE UNIVERSITY PRESS
CAMBRIDGE · LONDON · NEW YORK

Contents

PART 1 FEBRUARY 1977

PAGE

The distribution and relative sizes of three histochemical fibre types in the rat tibialis anterior muscle. By A. H. PULLEN 1

The postnatal development of the alimentary canal in the opossum. III. Small intestine and colon. By WILLIAM J. KRAUSE, J. HARRY CUTTS and C. ROLAND LEESON 21

The pig synovium. II. Some properties of isolated intimal cells. By M. E. J. BARRATT, HONOR B. FELL, R. R. A. COOMBS and AUDREY M. GLAUERT 47

Histochemical characteristics and contractile properties of the spinotrapezius muscle in the rat and the mouse. By K. TAYLOR and T. N. CALVEY . 67

Influence of ovarian surface epithelium and rete ovarii on follicle formation. By ANNE GRETE BYSKOV, NIELS ERIK SKAKKEBEK and HANNAH PETERS . 77

Argyrophilic cells in the larynx of the guinea-pig demonstrated by the method of Grimelius. By S. KIRKEBY and P. RØMERT. 87

Architecture and density of the connective tissue papillae of the human oral mucosa. By ANDRES J. P. KLEIN-SZANTO and HUBERT E. SCHROEDER . 93

Associations in the hominoid facial skeleton. By W. J. MOORE . . . 111

The presence of fine elastin fibrils within the elastin fibre observed by scanning electron microscopy. By MICHAEL A. KEWLEY, FRANK S. STEVEN and GEORGE WILLIAMS 129

Fine structure of the olfactory epithelium in some primates. By S. K. LOO . 135

Studies on the postnatal growth of the rat adrenal cortex. By NICHOLAS WRIGHT and DRAGO VONCINA 147

Joint remodelling and the evolution of the human hand. By O. J. LEWIS . 157

Identification of keratohyalin in freeze–fracture replicas of rat buccal epithelium. By A. S. BREATHNACH 203

Ultrastructural morphometry of the rat neurohypophysis. By J. J. NORDMANN 213

Experiments concerning the initiation of the choroid fissure in *Gallus domesticus*. By P. H. S. SILVER 219

PAGE

Book Reviews 227

Proceedings of the Anatomical Society of Great Britain and Ireland, July 1976, including a Symposium on Cellular Proliferation . . 233

PART 2 APRIL 1977

Sequential differentiation of retinal cells in the mouse studied by diaphorase staining. By Josobanta Bhattacharjee 273

The fine structure of developing elastic cartilage. By R. W. Cox and M. A. Peacock 283

Intracerebral transplantation of the genital tubercle in the rat: the fate of the penile bone and cartilages. By W. A. Beresford and S. P. Clayton . 297

A re-examination of the biphasic theory of skeletal muscle growth. By A. S. Levine and P. V. J. Hegarty 313

Histochemistry of blood and bone marrow cells in pangolins. By A. E. Caxton-Martins 325

Some ultrastructural observations on the intestinal mucosa of the toad (*Bufo melanostictus*). K. N. Chin and W. C. Wong 331

Intra-uterine growth retardation and limb deformities produced by neuromuscular blocking agents in the rat fetus. By A. A. Shoro . . . 341

Stages of spermatids in the domestic fowl: A light microscope study using Araldite sections. By Viranjanie K. Gunawardana 351

Experimental modification of muscle migration in the rabbit. By Philip G. Grant and Michael R. Hawes 361

Biomechanical and ultrastructural studies on the elastic wing tendon from the domestic fowl. By B. W. Oakes and B. Bialkower 369

Some effects of tenotomy on adult striated muscles. By G. N. C. Crawford 389

The suspensory muscle of the duodenum and its nerve supply. By Indar Jit and Sarbjit Singh Grewal 397

Contiguous allografts of male and female gonadal primordia in the rat. By M. A. Mangoushi 407

Radiographic assessment of calf muscle growth in the rat. By J. P. G. Williams and P. C. R. Hughes 415

PAGE

On the incremental lines in human dentine as revealed by tetracycline labelling. By K. KAWASAKI, S. TANAKA and T. ISHIKAWA 427

The collagen fibril organization in human articular cartilage. By R. J. MINNS and F. S. STEVEN 437

Development of acinar cells in the rat submandibular gland. By H. C. SRIVASTAVA 459

The distribution and relative sizes of fibre types in the extensor digitorum longus and soleus muscles of the adult rat. By A. H. PULLEN . . 467

Tubulo-vascular relationships in the developing kidney. By A. M. SPELLER and D. B. MOFFAT 487

An estimation of the fibre type composition of eleven skeletal muscles from New Zealand White rabbits between weaning and early maturity. G. E. LOBLEY, A. B. WILSON and A. S. BRUCE 501

The location of nuclei of different labelling intensities in autoradiographs of the anterior forebrain of postnatal mice injected with [^{3}H]thymidine on the eleventh and twelfth days post-conception. By I. H. M. SMART and M. SMART 515

The surface of dog articular cartilage: A scanning electron microscope study. By F. N. GHADIALLY, J. A. GHADIALLY, A. F. ORYSCHAK and N. K. YONG 527

Surface structure of tooth germs from newborn infants: a light and scanning electron microscopical study. By A. THYLSTRUP, P. SKAARING, O. FEJERSKOV and F. BIERRING 537

BOOK REVIEWS 549

PART 3 JULY 1977

Electron microscopic and enzyme cytochemical studies on granules of mature chicken granular leucocytes. By T. DAIMON and A. CAXTON-MARTINS . 553

The early innervation of the developing deciduous teeth. By ANTHONY A. PEARSON 563

Numbers and diameters of motoneurons and myelinated axons in the facial nucleus and nerve of the albino rat. MICHAEL R. MARTIN, KEITH W. T. CADDY and TIMOTHY J. BISCOE 579

Testis differentiation in the fetal and postnatal ferret. By RUTH DEANESLY . 589

PAGE

The developmental changes in the placenta of the guinea-pig. By W. H. Tam and S. M. Burgess 601

The growth patterns of three hindlimb muscles in the chicken. By Cyrus Helmi and Joel Cracraft 615

Light and electron microscopic demonstration of some lysosomal enzymes in the amoeboid microglia in neonatal rat brain. By E. A. Ling . . 637

Morphological effects of chronic tracheal ligation and drainage in the fetal lamb lung. By D. Alcorn, T. M. Adamson, T. F. Lambert, J. E. Maloney, B. C. Ritchie and P. M. Robinson 649

Experimental study of the development of the truncus and conus in the chick embryo. By María V. de la Cruz, Concepción Sánchez Gómez, M. Manuel Arteaga and Carlos Argüello 661

The fine structure of the rat metrial gland in relation to the origin of the granulated cells. By S. Peel and D. Bulmer 687

The avian bronchial arteries: species variations. M. A. Abdalla and A. S. King 697

Fine structure of squamous epithelium and submucosal glands of human oesophagus. By Tariq M. Al Yassin and Peter G. Toner . . 705

The structure of the cells lining the stomach of the tammar wallaby (*Macropus eugenii*). By R. T. Gemmell and W. v. Engelhardt 723

Pre-elastic (oxytalan) fibres in the developing elastic cartilage of the external ear of the rat. By Želimir Bradamante and Anton Švajger . . 735

A histochemical study of cholinesterases in arm and forearm muscles of the pigeon and fowl. By R. V. Nene 745

Neurons in the mouse anterior commissure. A light microscopic, electron microscopic and autoradiographic study. By R. R. Sturrock . . 751

The structure and composition of peripheral nerves and nerve roots in the *Sprawling* mouse. By L. W. Duchen and F. Scaravilli . . . 763

A radiographic study of the human fetal spine. 1. The development of the secondary cervical curvature. By K. M. Bagnall, P. F. Harris and P. R. M. Jones 777

A study of mammalian intrafusal muscle fibres using a combined histochemical and ultrastructural technique. By R. W. Banks, D. W. Harker and M. J. Stacey 783

PAGE

Regional and segmental characteristics of the human adult spinal cord. By A. J. BARSON and J. SANDS 797

The effects of age on mucosal morphology and epithelial cell production in rat small intestine. By RUFUS M. CLARKE 805

Diameter distribution spectra of myelinated axons in the median and ulnar nerves of the Soay sheep. By JENNIFER J. RYDZEWSKI and M. H. EVANS 813

Silver staining the caveolae intracellularis of smooth muscle. By DAN A. RILEY 819

ANATOMICAL NOTE. The function of muscles around a simple joint. DAVID I. STANIER 827
